Business Need
Why is McMaster doing this?

- Almost $200 million research revenue earned annually.
- ‘Other Income’ one of highest dollar value of U15
- No consistency in invoicing, revenue recognition, follow up, and collection
- Large number of unknown payments rec’d
- External research/finance review recommendation
MacBill

Desired Outcomes
Expected Benefits

• Ability for faculties and support units to generate invoices from templates
• Customer receives official invoice from McMaster
• Database of customers with tax rules
• Integration of billings with Research Grants module
• Ability to implement reminder letters and consistent policy for follow up
• Improved cash flow/reduced duplicate billings/improved accuracy of billings
Analysis
Estimated current volumes

19.3k
Non research invoices issued each year

1.3k
Research invoices issued each year

$84m
Non research invoices issued

$30m
Research invoices issued each year
Recommendation

Use Mosaic Billing and AR Module fully

- Implement the Billing section of the AR module already in use by all cash receipt users
- Impact to users will be less than purchasing new system
- Benefit from lessons learned at other universities in developing processes and policies
- Provide training for pilot areas, and continuous training as roll out progresses
- Use expert help from Deloitte for integration of modules (Grants/contracts/Non Student Billing and AR)
Plan
For implementation

- Pilot where volume is sufficient and interest is high
- Phase in over time
- Plan to implement with soft go live
- Write and seek approval for university wide ‘Accounts Receivable’ policy
- Take baseline measure and have targets for % invoiced through MacBill for next 3 years
Anticipated Impacts
What will be impacted

- No further customization anticipated
- No Moneris impact
- No integration with external billing systems
- Revenue recognized when billed, no system deferrals
- No netting
- Not to be used for internal billings
- Will be exceptions, approved by Enterprise Administrative Technology Committee
SCOPE

This Policy applies to billing and accounts receivable of the University (including research) except for fees and miscellaneous charges associated with students. Internal billings are not covered by this policy, as they are handled by Journal Entry and addressed in that policy.

Anatomy of a Policy
The Header (University policy from Admin Department)

1. Purpose

McMaster University ("the University") is committed to the highest standards of honesty, propriety, and integrity. It is University policy to investigate objectively any alleged dishonest or fraudulent activities related to funds or property owned by, or in the care of, the University. This policy aims to raise the awareness of these activities and their prevention and to give guidance to their reporting and the manner in which the investigation of that reporting will proceed.

New this month:
Review your Procedures

- Please review your procedures and requirements
- Please don’t add back requirements that have been taken out of University and Administration Policies.
- Please feel free to ask why
- Please feel free to make suggestions to simplify policies
Importance for Policies to be reviewed periodically

- For current day relevance
- Changes in legislation (e.g. BPSAA)
- Request from departments/individual (e.g. Gifts and Gratuities)
- Good practice of adding simplification
  - Without compromising control
- Mosaic
  - Increased compliance/built in approval level

How to review policies?

- Annual review of policies and procedures
  - Higher risk areas need more frequent review (e.g. Disposal of University Surplus Assets)
  - Review doesn’t always mean change
  - Just means validate for current feasibility
- Analysis of the appropriateness of policies
  - (e.g. AODA/Sustainability Policy-now part of our RFx documents)

Did you know?

- Prior to 2012, Purchasing Resources governed 25 policies
- Currently, operational under 1 main policy (SP-01)
- SP supports 8 other policies
To Delete or Not Delete-That’s the Question:

Examples of SP Policies that were removed:
- P-030 “Establishing New Policies & Procedures”
- P-040 “Changing Existing Policy & Procedures”
- P-300 “Purchase Order Expediting”
  • Mosaic provides compliance & processing efficiency
- P-330 “Systems Contracts”
  • Mosaic facilitates more efficiency in processing POs

On the radar…

Examples of possible upcoming changes to Policies:
- CETA/CFTA (new Trade Agreements)
  • Contract awards/bid process
- Bill 148
  • $15 Minimum Wage/ICQ form

Recoveries
Overview

Types of Recoveries:

Internal: To another department within McMaster (MAC01).

External: To an external entity*.

* We have inter-company accounts with external entities (e.g. #210515 – MSU). As such, a recovery via a journal entry does not guarantee it is an internal recovery.
Recoveries

Internal Recoveries

Internal Recoveries should use account numbers within the same Parent Node and where possible the same account number should be used. For example, salary recoveries should use salary accounts for both the debits and credits of the journal entry. This minimizes allocation misstatements.

Dr.  #500001 – FT Academic Salaries  $10,000
Cr.  #500801 – Recovery Academic FT  $10,000
This keeps the overall wage expense for the University untouched.

Dr.  #808000 – INT Recoveries  $10,000
Cr.  #500801 – Recovery Academic FT  $10,000
This would show that we spent $10,000 less on salaries.
Recoveries
External Recoveries

External Recoveries should use account numbers in the #490000 to #499000 range.
Capital Asset Accounts

Salary Accounts
Considerations

When determining the salary account, remember:

1. **Don’t use 541099**
   - System-generated when account is missing

2. **Use 501012 for CUPE sessional faculty**
   - All other sessional part-time teaching including overload should use 501001

3. **Full-time means permanent, part-time means contract**
   - Contract staff working 35 hours should use 541001
