

## If You Lost Your Smart View Tab in Excel - Fix

If you have already installed Smart View on your computer and now the SmartView tab has suddenly disappeared from Excel, then follow the steps below to fix the issue.

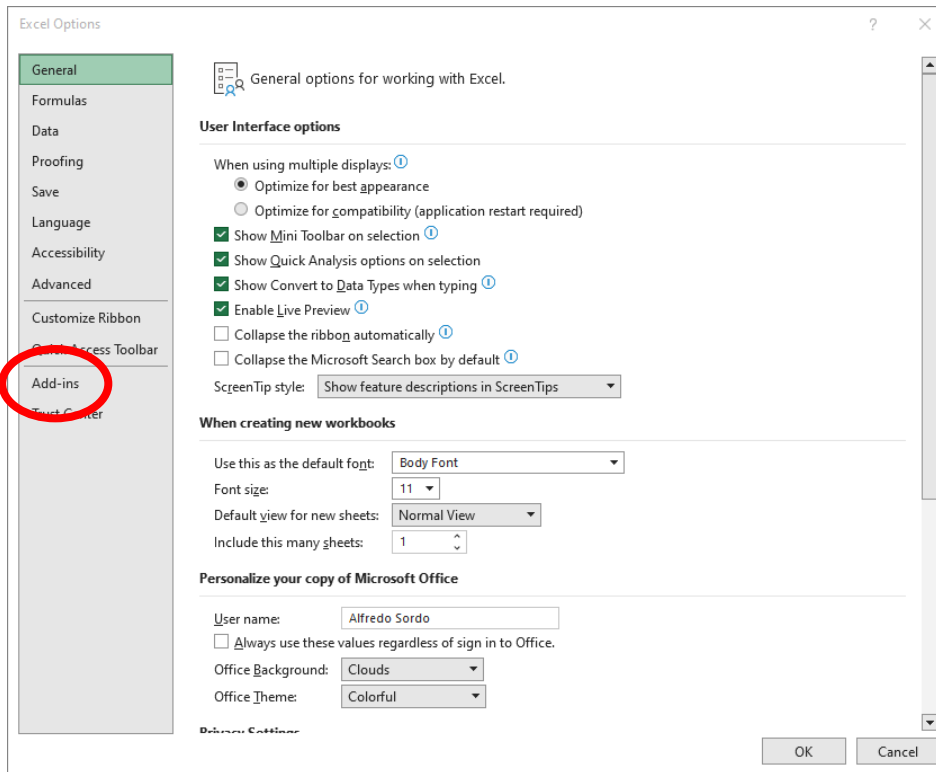

1. Open Excel and on the top left side of the screen select **File** from the menu bar as shown in the image below:

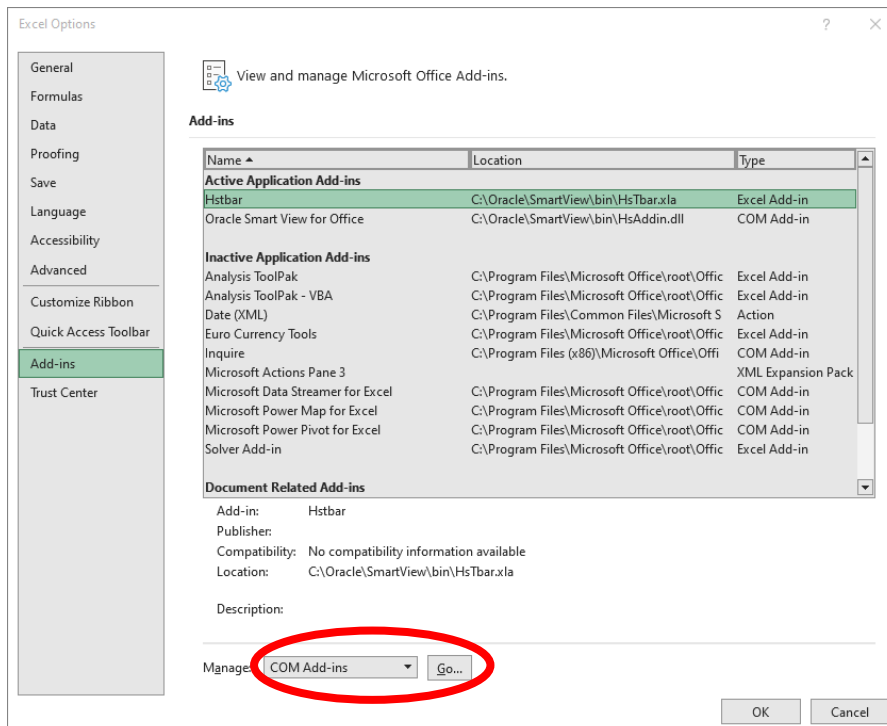

2. Then on the bottom left corner of the screen select **Options** as shown in the image below:

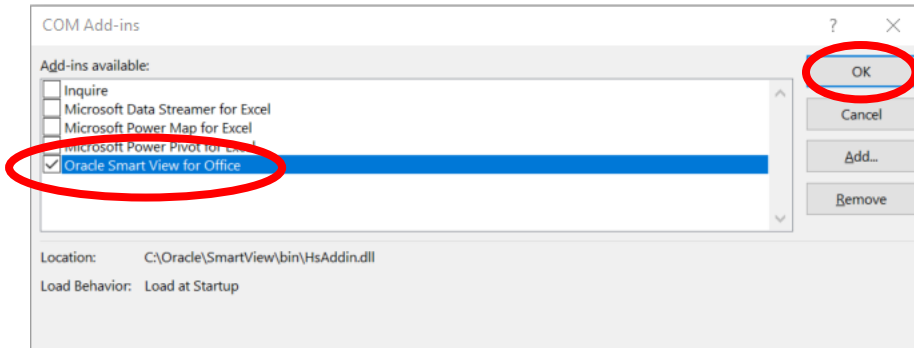

3. In the Excel Options window on the left hand side of the column select **Add-ins** as shown in the image below:

4. On the bottom of the Excel Options window select **COM Add-ins** from the Manage: drop-down list and select **GO** as shown in the image below:

5. In the COM Add-ins window **select the checkbox for Oracle Smart View for Office** and click **OK** as shown in the image below:

6. Then close Microsoft Excel and then reopen Excel and you should see the Smart View tab as shown in the image below:
